

TO: ASHRAE Members and Supporters

March 2019

[ASHRAE Ireland](#) was founded in June 2015, and was officially inaugurated as an ASHRAE Chapter in 2017. Over the past 3 years, we have seen tremendous growth, with our membership increasing three-fold from its 2015 base, and our online subscriber list growing to almost 700, covering both industry and academia.

We've held annual conferences at Engineers Ireland HQ, with presentations from renowned [ASHRAE Distinguished Lecturers](#) (DL) and local experts. We welcomed the standing ASHRAE Presidents, [Prof. Tim Wentz](#) in October 2016 and [Prof. Bjarne Olesen](#) in 2017. We have also organised regional talks and workshops on a variety of topics, such as [future of the building services industry](#), [BIM and facility management](#), [integrated building design](#) (IBD), and [data centres](#) (with CIBSE-ASHRAE group), [Nearly Zero Energy Buildings \(NZEB\)](#), [Refrigeration](#) and [Evaporative Cooling](#). All of these events are free, open to both members and general public, and have been attended from hundreds of local professionals, attracting growing attention from national media. You can keep up with the latest developments by following our [twitter feed](#), subscribing to our [mailing list](#), and keeping track of the [news](#) and event's page on our [website](#).

Every year we will host at least one major annual conference, with representation from current ASHRAE leadership. Several other regional events will also be scheduled throughout the year, including technical seminars, training courses and student competitions. We are actively engaging with Universities and Institutes of Technology across Ireland to support their programmes in the sciences of heating, ventilation, air conditioning and refrigeration as well as raising the visibility, understanding and influence of our profession. We are also liaising with affiliated professional associations (e.g. Engineers Ireland, CIBSE, IoR, HPAI etc.) and government agencies (e.g. SEAI) to help promote a sustainable built environment in Ireland.

However, for all of our ambitious plans to materialise and expand we will like to invite companies to support us. ASHRAE is a voluntary organisation and we are more than happy to dedicate our own time and effort, but to organise and hold all those events that benefit the local building and HVAC industry and professionals we need resources that extend beyond our labour.

Funding and support from our partners and sponsors are always at the forefront of our planning. The support raised by our fundraising committee provides vital resources to ensure the event and activities roll out as planned. More importantly, it allows the ASHRAE Ireland Chapter to host its annual conference and the other events that are so valuable to our regional members and the public attendees who join us. Attendees to those sessions can earn CPD credits that can be used to maintain their chartered status and provide valuable continuing education.

Beyond sponsorship we would like to encourage you to support and promote [ASHRAE membership](#) within your organisation. ASHRAE member employees have the tools necessary to meet and exceed company expectations, by having access to (and discounts on) industry publications, as well as networking opportunities, continuing education courses, and much more.

Yours faithfully,

Donal Finn (President)

Pat McEnroy (Treasurer)

In an effort to bid support for all our activities, we would like you to consider becoming a sponsor at one of our three (3) levels:

€1,000+ p.a.

- Company Logo (big) on the ASHRAE Ireland Website Homepage
